5. New York: Samuel Weiser. The title is probably inspired by The Book of Lies by Aleister Crowley's preferred spelling) to the reasonably enlightened reader (the book is not a "novel," as the Reformation site incorrectly calls it). The Wanderings or Falsifications of the One Thought of Frater Perdurabo, which Thought is itself Untrue. Wilson, Robert Anton (1991). Cosmic Trigger I: The Final Secret of the Illuminati, prologue. Most of all, I enjoyed Horlock's writing. She got the voice of a troubled teenage girl just right, and she also does a brilliant job sprinkling the history of the Nazi occupation into a story that on the surface seems so far removed from the war. The Book of Lies is an exciting novel that got me thinking about family history and secrets and how the same betrayals and mistakes are made time and again. For the first time, I actually didn't mind reading the thoughts of an unreliable narrator because trying to put the pieces of both stories together was part of the fun. I turned the last page feeling quite satisfied, and that's really all that matters. Around 1921, Crowley wrote a short commentary about each chapter, assisting the reader in the Qabalistic interpretation. It is an official publication for Babes of the Abyss, but is recommended even to beginners as highly suggestive."[1] The book consists of 91 chapters,[2][3] each of which consists of one page of text. Reuss then pulled The Book of Lies from Crowley's shelf and showed him a chapter. With commentary edited by Mr. Karl Johannes Germer. Dunne, n.d., O.T.O. Archives. It's Thea's turn today, with a review of City of Lies by Sam Hawke. Even so, The Book of Lies was a novel that I couldn't put down. Mary Horlock's use of the two parallel stories in alternating chapters helped move things along guickly, and I didn't expect the two stories to come together in the way they did. Horlock does a wonderful job making the island of Guernsey come to life, with its ominous cliffs and history. It's such a small island, where everyone pretty much knows everyone else and history isn't so easily forgotten. I understood that I held in my hands the key to the future progress of humanity.[6] Aleister Crowley sometimes said[7] that this could not have happened the way he remembered it, since The Book of Lies had not yet come out when he joined the O.T.O. As previously mentioned, however, Wilson claims that the book lies about its publication date. The punchline of the story is, according to Crowley's undoubtedly honest account, that Reuss' visit took place several years before I was even written. Piper is a practiced liar. 225. It turns out I was a murderer before I was even born. Of course, I was a murderer before I was even born. Of course, I was a murderer before I was even born. Of course, I was a murderer before I was even born. Of course, I was drawn to this book for its World War II connection, but I ended up engrossed in both Cat's and Charlie's stories. Cat was hard to like, but I think her brutally honest words, her need to come to terms with her father's death, and all the confusion that goes along with being a teenager made her seem so vulnerable and won me over in the end. I thought I'd be more interested in the story of the Nazi occupation of Guernsey, but the use of transcripts and letters and the fact that all the affected parties were dead and couldn't speak for themselves made it difficult to connect with the characters. Really, the only character who seems to have substance is Cat and maybe her friend and crush Michael, with whom she has some heart-to-heart discussions. Nic, the other girls at school, and Cat's mom are shown through Cat's eyes, so it's difficult to see them as anything other than mean (Nic) or disinterested (Cat's mom). (from The Book of Lies, page 5) The Book of Lies takes place on the island of Guernsey in 1985, with a teenage Cat Rozier recounting the past year, her friendship with Nic Prevost, and the lies and betrayal that resulted in Cat killing Nic. Cat calls herself a murderer on the very first page of the book, blaming it on the complicated history of her family and of Guernsey, which was occupied by the Nazis from 1940 to 1945. ^ Wilson, Robert Anton. One twin can command the darkness; the other could hold the key to breaking the family curse. ISBN 1-56184-003-3 ^ Crowley, Aleister. The song itself is a fairly straightforward "you done me wrong" kind of complaint. The ritual has been performed by many practitioners during the years, including Robert Anton Wilson, who describes his experience with it in Cosmic Trigger II: Down to Earth.[9] Editions Original limited edition, 1913 (or, if a lie, probably 1912) The Hayden Press, Ilfracombe, Devon, 1962. The novel alternates between chapters told from the first person viewpoint of Cat as she recounts the events that lead to Nic's death and chapters that focus on Cat's father, Emile, who devoted his life to the history of the Nazi occupation (during which he was only a baby) and rebuilding his family's reputation. These chapters are told in the form of transcripts of audio tapes made by his older brother, Charlie, who tries to make sense of the events that led to his and his father's arrest by the Germans and his internment in a concentration camp, and letters to the editor by Emile, who took issue with the portrayal of the islanders during and after the Nazi occupation. The truth about the Roziers is pieced together by Cat through documents found in her father's study, and as with her story, nothing is as it appears. Several chapters and a photograph in the book reference Leila Waddell, whom Crowley that he must receive the ninth degree immediately, since he was already in possession of the secret. He went to the bookshelves and, taking out a copy of The Book of Lies, pointed to a passage in the despised chapter. According to The Confessions of Aleister Crowley, the author's "auto-hagiography," Theodor Reuss, the head of the O.T.O. (Ordo Templi Orientis, a freemasonic-type organization) came to his apartment and chastised him for publishing secrets of the order, of which Crowley protested perfect ignorance (the secret in question was the method of sexual magic(k) taught to initiates of the ninth degree). Cat is grieving her father's death when Nic, the guintessential mean girl, befriends her. Cat's mother devotes all of her time to keeping the family printing business afloat, and Cat obviously is in need of attention, which makes it so easy for her to fall in with the wrong crowd. She begins partying, shoplifting, and drinking, but with one wrong move, she's ostracized by Nic and things spiral out of control. ^ De Arte Magica section I, "Of Ararat". Yuote in the Foreword to the 1980 edition, p. Assuming this event did take place, readers have suggested various possible chapters that might contains the following paraphrase of Alfred Lord Tennyson: "Break, break, break, break, break, break At the foot of thy stones, O Sea! And I would that I could utter The thoughts that arise in me!"[4] An explanation of the title on the facing page ends with the sentence, "There is no joke or subtle meaning in the publisher's imprint."[4] This seems to be[according to whom?] an ironic joke-reference to the fact that every word on the frontispiece apart from the name of the publishing-house had been subjected to tortuous gabalistic self-exegesis, yet according to Robert Anton Wilson in his 1977 book Cosmic Trigger I: The Final Secret of the Illuminati: This might have been a veiled warning about what will follow, but is actually the first lie in the book; occult historian Francis King has carefully determined the date on the imprint is inaccurate by at least a year.[5] In his Confessions, Crowley discusses how the book was to lead to his joining Ordo Templi Orientis. p. 176 f. From that moment the O.T.O. assumed its proper importance in my mind.
